Volume XIX General Index

ABLITT, L. *See* BRUETON, M. J., BERGER, H. M., *et al.*

Achalasia, lower oesophageal sphincter response to intravenous pentagastrin infusions in, **1121**

Acid microclimate in coeliac and Crohn's disease as model for folate malabsorption, **735**

Actinomycin, tritiated, in surface epithelial cells from normal stomach and atrophic gastritis, nuclear binding of, **870**

Adenosine monophosphate, cyclic, plasma levels during secretin-caerulein pancreatic function test in liver and pancreatic disease, **214**

ADLER, M., ROBBERECHT, P., POJTEVIN, M. G., and CHRISTOPHE, J.: Plasma cyclic AMF levels during a secretin-caerulein pancreatic function test in liver and pancreatic disease, **214**

Adrenaline, effect on gastrin release in duodenal ulcer, **202**

ADRIAN, T. E., GREENBERG, G. R., EBSTERMAN, H. S., and BLOOM, S. R.: Pharmacokinetics of pancreatic polypeptide in man, **907**

AGARWAL, S. K. *See* JALAN, K. N., MAHALANABIS, D., *et al.*

Age, sex, HBsAg status, and aetiology of underlying cirrhosis, influence on hepatocellular carcinoma in Great Britain, **1022**

Age-related changes in colonic blood supply, relevance to ischaemic colitis, **384**

Aguecheek, Sir Andrew, disease of, **468**

ALAM, A. N., WHEELER, P., WILKINSON, S. P., POSTON, L., GOLINDANO, C., and WILLIAMS, R.: Changes in the electrolyte content of leucocytes at different clinical stages of cirrhosis, **650**

AL-BAHRANI, Z., AL-SALEEM, T., AL-MONDHIRY, H., BAKIR, F., YAHIA, H., TAHA, I., and KING, J.: Alpha heavy chain disease (report of 18 cases from Iraq), **627**

Alcohol induction of gastro-oesophageal reflux, **336**

Alcoholic liver disease, mitochondrial enzyme activities in liver biopsies in, **341**

—— —— ——, recognition in district general hospital, **521**

Alcoholics, portal fibrosis in liver in, **1015**

ALDINI, R. *See* RODA, E., ALDINI, R., *et al.*

ALEXANDER-WILLIAMS, J. *See* HOARE, A. M., KEIGHLEY, M. R. B., *et al.*

——. *See* HOARE, A. M., MCLEISH, A., *et al.*

——. *See* KEIGHLEY, M. R. B., ARABI, Y., *et al.*

——. *See* WHITE, C. M., HARDING, L. K., *et al.*

ALLAN, R. N. *See* KEIGHLEY, M. R. B., ARABI, Y., *et al.*

ALLSOP, J. R., and LEE, E. C. G.: Factors which influenced postoperative complications in patients with ulcerative colitis or Crohn's disease of the colon on corticosteroids, **729**

AL-MONDHIRY, H. *See* AL-BAHRANI, Z., AL-SALEEM, T., *et al.*

Alpha heavy chain disease, 18 cases from Iraq, **627**

—— —— —— ——, gamma chain disease simulating, **1148**

Alpha-1-antitrypsin. *See* α_1-Antitrypsin

AL-SALEEM, T. *See* AL-BAHRANI, Z., AL-SALEEM, T., *et al.*

Amino acids, intraduodenal and intravenous administration of, comparison of effects on gastric secretion in healthy and duodenal ulcer subjects, **859**

—— ——, sulphur, dietary, and duodenal bile acid conjugation patterns in newborn, **95**

(^{14}C) Aminopyrine breath test in liver disease, assessment of, **40**

Ammonia, blood level, regulation of, **504**

Amoebiasis, **940**

Amylase/creatinine clearance ratios, pancreatic and salivary, in normal subjects and in chronic pancreatitis, **350**

—— —— ——, —— —— ——, in chronic renal insufficiency, **1125**

Anaemia, spur cell, regression after polyunsaturated phosphatidylcholine infusion, and red blood cell membrane lipid composition in liver disease, **844**

Anal continence, maintenance of, and pelvic floor physiology, **1163**

Angiography, selective, in acute mesenteric ischaemia, **132**

Anorectal distension reflex and sensibility of rectum to distension in ulcerative colitis, **64**

Antacids, administration of, long-term, parietal cell hyperplasia induced in rats by, **798**

Antibodies to *E. coli* in inflammatory bowel disease, **108**

Antigen, hepatitis B surface. *See* Hepatitis B surface antigen

Antipyrine metabolism in hepatosplenic schistosomiasis in Sudan, **808**

α_1-Antitrypsin bodies in liver, Pi^z phenotype and peptic ulcer, **157**

—— deficiency and liver disease, **470**

Antrectomy, lower oesophageal sphincter response to intravenous pentagastrin infusions after, **1121**

Antrum, G cell population of, plasma gastrin, and gastric acid secretion in patients with and without duodenal ulcer, **689**

ANZINI, F. *See* CORAZZIARI, E., POZZESSERE, C., *et al.*

ARABI, Y. *See* KEIGHLEY, M. R. B., ARABI, Y., *et al.*

ARDEMAN, S. *See* EPSTEIN, O., JUDELMAN, J., *et al.*

ARNOLD, R. *See* MCINTOSH, C., ARNOLD, R., *et al.*

ARRAS, S. *See* CHIANDUSSI, L., BARTOLI, E., *et al.*

Arterial hypotension and cerebral oedema, effect on cerebral blood flow in animal model of hepatic failure, **999**

Arthritis, rheumatoid, hypergastrinaemia in, assessment of incidence and aetiology, **1064**

Ascites due to chronic liver disease, treatment without sodium restriction and without complete removal of fluid, **549**

Index to Abstracts

Abdomen, pain in, 'unexplained', cancer presenting as, 98 cases of, **A450**
——, upper, pain in, instant outpatient endoscopy for, **A447**
Abdominal compression, lower oesophageal high pressure zone and reflux during, **A434**
Abscess, anorectal, relationship between infecting organism, incidence of fistulae and recurrence rate in, **A458**
Acetaldehyde dehydrogenase, hepatic, alcohol reduction of, **A980**
Adenine arabinoside therapy in hepatitis B antigen positive chronic liver disease, **A991**
Adenocarcinoma in Barrett's oesophagus, 16 cases of, **A976**
Adenomas, colonic, colonoscopic appraisal of, **A983**
——, rectal, diagnosis of malignancy in, **A451**
Adenosine monophosphate, cyclic, and permeability changes in colonic mucosa, role in bile acid induced colonic secretion, **A968**
β Adrenergic drugs and β blocking agent, effect on gastric emptying, **A435**
ADRIAN, T. E., *et al.*: Hypotrypsinaemia in diabetes mellitus, **A960**
——, *et al.*: Plasma trypsin in the diagnosis of steatorrhoea due to chronic pancreatitis, **A446**
Age, effect on hepatic drug metabolism and response to enzyme induction, **A980**
Alcohol reduction of liver acetaldehyde dehydrogenase, **A980**
Alcoholic liver, iron overload in, **A453**
Alphafetoprotein. See α-Fetoprotein
AMDRUP, E., *et al.*: Preliminary results of a modified Hill-Larrain procedure for gastrooesophageal reflux, **A977**
Amino acids, non-polar, neutral, defective small intestinal absorption in pancreatic insufficiency, **A440**
AMP. *See* Adenosine monophosphate
Amylase secretion, calcium-dependent, evocation by bombesin in isolated mouse pancreas, **A979**
Anal fissure, manual dilatation of anus and lateral subcutaneous sphincterotomy for, comparison by clinical trial, **A988**
—— pressure studies in rectal prolapse and incontinence, **A457**
—— sphincter competence in chronic diarrhoea, **A456**
Anorectal abscess, relationship between infecting organism, incidence of fistulae and recurrence rate in, **A458**
——incontinence, and rectal prolapse, anal pressure studies in, **A457**
Antacid therapy, high dose, in duodenal ulcer, case for, **A974**
Antacids, effect on cimetidine absorption, **A990**
Antibiotics, colitis associated with, animal model of, **A444**
Antibodies, lymphocytotoxic, in Crohn's disease, **A963**
Antibody, circulating, to halothane altered hepatocytes in hepatitis, demonstration of, **A994**
——, hepatitis B surface, in chronic liver disease, **A965**
—— in duodenal mucosa to bacteria grown from duodenal luminal fluid and mucosa in children with diarrhoea, **A957**
—— to LSP in acute viral hepatitis, **A994**
Antigen, carcinoembryonic, levels of, patterns of change in patients developing recurrent colorectal cancer, **A988**
——, hepatitis B surface. *See* Hepatitis B surface antigen
——, liver-specific, cell-mediated immunity to, in cystic fibrosis associated with liver disease, **A964**
α_1-Antitrypsin as endogenous marker to detect protein-losing enteropathy, **A966**
——, faecal, measurement of, as diagnostic test of protein-losing enteropathy, **A966**
Antrum and duodenum, pacing in, effect on pyloric reflux in cat, **A996**
——, gastrin concentration, variation in, and effect of gastritis, **A978**
——, —— distribution within, **A437**
——, motility, and pyloric diameter, influence of hormones, **A435**
——, pyloric, innervated, intact, importance for control of gastric emptying of liquids, **A977**
Anus, manual dilatation of, and lateral subcutaneous sphincterotomy for anal fissure, comparison by clinical trial, **A988**
Aphthae, recurrent, coeliac disease in patients with, **A439**
Appendicectomy, sepsis after, pathogenesis of, **A987**
ARABI, Y., *et al.*: Clinical trial to compare manual dilatation of the anus and lateral subcutaneous sphincterotomy for anal fissure, **A988**
——, *et al.*: Trial of high fibre diet or local treatment for patients with haemorrhoids, **A987**
ASHTON, M. G., *et al.*: Pancreatogram abnormalities in biliary disease, **A433**
Aspiration cytology of pancreas at ERCP, **A962**
Ativan, Buscopan, and Fybogel in irritable bowel syndrome, therapeutic trial of, **A975**
Atropine and oral water load, gastrointestinal hormone release after, **A436**
Autoimmunity, hyposplenism and adult coeliac disease, relationship between, **A438**
——, relationship to HLA status in coeliac disease, **A438**

Bacteria and prostaglandin production in ulcerative colitis, **A989**
——, colonic, activity of, bile cholesterol saturation, and pathogenesis of gallstones, **A975**
—— grown from duodenal luminal fluid and mucosa in children with diarrhoea, duodenal mucosal antibody to, **A957**
——, opsonisation, impairment due to complement deficiency in fulminant hepatic failure, **A984**
BADCOCK, J., and TOMKINS, A. M.: Composition and enzymes of crypt and villus cells in the small intestine of folate deficient rats, **A970**

Phagocytosis and intracellular killing in inflammatory bowel disease, **A456**
Plasma oestrone levels, raised, in cirrhotic men, significance of, **A964**
—— pancreatic polypeptide levels, physiological, inhibition of stimulated pancreatic and biliary secretion by, **A961**
—— trypsin in diagnosis of steatorrhoea due to chronic pancreatitis, **A446**
Plasmapheresis in Crohn's disease, trial of, **A974**
Pneumatosis coli, high flow oxygen therapy in, **A976**
—— cystoides intestinalis, breath hydrogen in, **A973**
PODESTA, M. T., *et al.*: Faecal bile acid excretion in patients with cholelithiasis before and during chenodeoxycholic and ursodeoxycholic acid therapy, **A991**
Polypectomy, 'lassoo' technique in, **A957**
Polypeptide, gastric inhibitory, endogenous, nature of, **A437**
——, pancreatic. *See* Pancreatic polypeptide
Polypeptide-secreting endocrine cells in small intestinal biopsies, technique for demonstration of, **A979**
PONZ DE LEON, M., *et al.*: Absorption of dietary cholesterol and hepatic cholesterol synthesis in cirrhosis, **A970**
——, *et al.*: Effect of chenodeoxycholic acid on cholesterol absorption in man, **A972**
Portal hypertension, haemorrhage in, repeated endoscopy for determination of source of, **A955**
Portosystemic encephalopathy, chronic, bromocriptine in treatment of, **A453**
—— ——, hepatic, chronic, reversible focal seizures as manifestation of, **A984**
Post-enteritis syndrome and 'toddler' (non-specific) diarrhoea, intestinal transport system abnormalities in, **A957**
POTTER, B. J., *et al.*: Clq metabolism in patients with inflammatory bowel disease, **A443**
POWELL-JACKSON, P. R., *et al.*: Cimetidine relieves symptoms of gastro-oesophageal reflux, **A441**
POWELL-TUCK, J., *et al.*: Team approach to long-term intravenous feeding in gastroenterological patients, **A986**
PRD-92 in treatment of ulcerative colitis, **A989**
Prednisolone, effect on adapted ileum after jejunal resection, **A455**
——, sulphasalazine or codeine phosphate treatment, effect on prostaglandin synthetase activity in ulcerative colitis, **A989**
PRICE, A. B., and LARSEN, H. E.: Antibiotic-associated colitis, an animal model, **A444**
Proctocolitis, ulcerative, eosinophils in rectal mucosa as prognostic indicator for, **A442**
Prolactin, effect of cimetidine, clinical relevance of, **A986**
——, trophic to intestine in coeliac disease?, **A992**
Prolyl hydroxylase activity in serum and rectal mucosa in inflammatory bowel disease, **A444**
Prostaglandin E_1, effect on water and solute movements in jejunum in adult coeliac disease, **A993**
—— E_2 and indomethacin blockade, effect on electrolyte transport in jejunum, **A455**
—— synthetase activity in acute ulcerative colitis and effect of sulphasalazine, codeine phosphate or prednisolone treatment, **A989**
Prostaglandins and calcitonin, role in diarrhoea of medullary carcinoma of thyroid, **A455**
——, production, and bacteria in ulcerative colitis, **A989**
Protein, copper-associated, orcein-positive, in childhood liver disease, **A965**
Protein-losing enteropathy, detection of, α_1-antitrypsin as endogenous marker for, **A966**
—— ——, faecal α_1-antitrypsin measurement as diagnostic test of, **A966**
Pyloric antrum, innervated, intact, importance for control of gastric emptying of liquids, **A977**
—— reflux, effect of antral and duodenal pacing in cat, **A996**
Pylorus, diameter of, and antral motility, influence of hormones, **A435**
Pyrogastrone in reflux oesophagitis, trial of, **A985**

Radioimmunosssay measurement of trypsin concentration in duodenal juice, **A979**
—— of gastrin, clinical relevance of, **A967**
—— of trypsin in pure pancreatic juice, **A445**
RAINSBURY, R. M., *et al.*: Cancer of the pancreas and extrahepatic biliary apparatus: a study of its behaviour in 150 patients, **A962**
RALPHS, D. N. L., *et al.*: Effect of a dietary fibre on gastric emptying in dumpers, **A986**
——, *et al.*: Proximal gastric vagotomy and early dumping, **A435**
